

Guntha Satya Narayana Reddy

Tirupati, Andhra Pradesh / satyareddy2004@gmail.com / +91 93447077588

Career Objective

Recent Computer Science graduate with strong foundational knowledge in programming languages like Python and Web Technology. Experienced in software development through academic projects and internships. Excellent problem-solving and analytical skills, with a passion for learning and adapting to new technologies. Eager to contribute to a dynamic team, grow professionally, and help drive company success.

Education

Electronics And Communication Engineering

Sri Venkateswara College of Engineering, Tirupati, Andhra Pradesh

04/2025

GPA: 8.5

Intermediate

Sri Dattasai Junior College, Porumamaila, Andhra Pradesh

03/2021

GPA: 9.28

SSC

Vijaya High School, Andhra Pradesh

04/2019

GPA :9.7

Skills

Programming Languages:

- **JAVA:** Java is high-level, object-oriented programming language that allows developer to create robust, scalable, and platform-independent application.
- **SQL:** SQL is a standard language for managing relational databases, allowing me to perform crud operations and complex queries to extract insights from data. I'm proficient in writing sql queries, designing database schemas, and optimizing database performance.

Web Development:

HTML,CSS,JAVASCRIPT: Experience with flexbox, grid and responsive design

Project Work

ONLINE QUIZ MANAGEMENT SYSTEM:

- Built an Online Quiz Management System in Java with user login, test-taking, and admin management features.
- Developed a Java-based Online Quiz Platform supporting secure login, mock tests, answer review, and admin control.
- Integrated MySQL database using JDBC to manage users, questions, and test results.
- Designed interactive UI for test instructions, timer, answer review, and submission.
- Built an Admin module for managing user profiles and monitoring test performance.
- Ensured data validation and session management for secure and reliable test process.

MEMORY GAME (JAVA SWING)

- Developed a Memory Game using Java and Swing GUI to test memory skills by matching tile pairs.
- Used Java OOPS concepts and Array lists to manage game logic and tile handling.
- Designed interactive UI for flipping tiles, matching pairs, and resetting the game.

Certifications

Course Certification:

- Java full stack in tap academy

Soft Skills

- Problem Solving
- Quicker Learner
- Time Management
- Adaptability
- Team Work

Leadership & Extracurricular Activities

- Team Lead for college-level technical projects, responsible for organizing meetings, assigning roles, and ensuring timely delivery.
- Volunteered as an event coordinator in technical fests, honing both leadership and time management.

Hobbies & Interests

- Exploring new programming languages and project management methodologies.
- Traveling and learning about different cultures.
